Dear Joe and David:

Building a company that provides phone and internet service to a 10,000-square-mile section of rural Northeast Michigan remains one of my proudest accomplishments. Putting the internet to work for me to find BizLoanFunding.com is one of my smartest.

You know well by now of my frustrations at trying to find a bank that cared enough to really get to know our business at a time when lenders in our own region – some of them our own customers – never seemed to grasp the fiscal dynamics in a way that made them comfortable to even consider a loan that could help propel us into the future. But through your expertise, you were able to connect us with a lender that worked so hard to get to know us and then work so diligently to grant us the loan.

We never would have found the financing without you, and without that connection we'd be looking at a highly uncertain future regarding reliable phone and internet service throughout much of rural Northeast Michigan.

So I thank you. Our employees thank you. And on behalf of the thousands of business and residential customers, many of whom will see improved service from the system upgrades we'll now be able to perform, thank you once more.

If there's anything we at Custom Software Inc. can do to repay this extraordinary professional service, please don't hesitate to call on us.

Sincerely,

Glenn A. Wilson Sr.
